Advanced Environmental Monitoring Young Kim 2007-10-31 This book deals with recent developments and applications of environmental monitoring technologies, with emphasis on rapidly progressing optical and biological methods. Written by worldwide experts, this book will be of interest to environmental scientists in academia, research institutes, industry and the government.

Food Insecurity on Campus Katharine M. Broton 2020-05-12 Crutchfield, James Dubick, Amy Ellen Duke-Benfield, Sara Goldrick-Rab, Jordan Herrera, Nicole Hindes, Russell Lowery-Hart, Jennifer J. Maguire, Michael Rosen, Sabrina Sanders, Rachel Sumekh
The Glass Castle Jeannette Walls 2006-01-02 Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

Squeeze Me Carl Hiaasen 2020 "A prominent high-society matron—who happens to be a fierce supporter of the President and founding member of the POTUSSIES--has gone missing at a swank gala. When the wealthy dowager Kiki Pew Fitzsimmons is later found dead in a concrete grave, panic and chaos erupt. The President immediately declares that Kiki Pew was the victim of rampaging immigrant hordes. This, as it turns out, is far from the truth. Meanwhile, a bizarre discovery in the middle of the road brings the First Lady's motorcade to a grinding halt (followed by some grinding between the First Lady and a lovestruck Secret Service agent). Enter Angie Armstrong, wildlife wrangler extraordinaire, who arrives at her own conclusions after she is summoned to the posh island to deal with a mysterious and impolite influx of huge, hungry pythons"--

Emergency Engagement Samanthe Beck 2016-02-15 Glass artist Savannah Smith expected a marriage proposal for Thanksgiving—just not from her strong, silent, super-hot neighbor. But when misplaced mail and a wayward can of paint lands them in a compromising position right as her family arrives for dinner, they assume he’s “The One” she’s been talking about. Then his family shows up. Fate dealt a crippling blow to paramedic Beau Montgomery’s heart, and he isn’t about to put it at risk again. Except, with his mother crying tears of joy over his surprise engagement to the sexy little blonde next door, he can’t bring himself to ruin her “Christmas miracle.” Somewhere between the paint can to the head and the chaotic family trip to the ER, Beau manages to talk Savannah into being his fake fiancée long enough to survive the holidays. If, of course, they don’t fall in love first... He needs the kind of rescue only she can provide... Each book in the Love Emergency series is a standalone story that can be enjoyed out of order. Series Order: Book #1 Emergency Engagement Book #2 Emergency Delivery Book #3 Emergency Attraction

Food Poverty and Insecurity: International Food Inequalities Martin Caraher 2015-10-23 This volume is concerned with food poverty and action on food (in)security. The context is a global one; as the developed world faces a problem with overconsumption and chronic diseases, the developing world is addressing the double burden of hunger and over consumption. Even in the developed world, nation states are facing the rise of modern malnutrition which is over consumption, but also the re-emergence of hunger as there are growing levels of poverty and inequality due to the financial crises. Food insecurity is in many people’s minds associated with hunger, and while this is true the modern food system has introduced new complexities to food insecurity with the growth of micro-nutrient inequalities. Hunger and obesity are not being faced by two different groups but often the same group or cohort. These are features of modern malnutrition that are often not recognized. A critical examination of food poverty and food security is undertaken, with a view to clarifying taken-for-granted assumptions in present discourses. The book addresses food charity and the rise of solutions such as foodbanks as appropriate social responses. The final chapters explore the solutions from real life situations. The concluding chapter from the editors draws together the issues and locates solutions within a food policy framework of the total food system. The various definitions of food insecurity will be examined. Hunger and its modern manifestations (hunger and obesity) is another focus, with particular explorations of developed and developing countries experiences. Some of the chapters cover how food poverty/insecurity is being addressed and provide examples of work in progress.

The Stop Nick Saul 2013-10-01 “[A] terrific book about a visionary post-food bank project.” —Michael Pollan THE INTERNATIONAL BESTSELLER British super chef Jamie Oliver called it "amazing," writing that he'd traveled all over the world and never seen anything like it. New York Times food writer Mark Bittman called it "one of those forward-thinking groups pointing the way to the future of good food." Raj Patel, the critically acclaimed author of *Stuffed and Starved*, said he was "blown away" by it. So what is it? The Stop, a Community Food Centre that has revolutionized the way we combat hunger and poverty. Since community worker Nick Saul became the executive director of The Stop in 1998, it has been transformed from a cramped food bank to a thriving, internationally respected Community Food Centre. The Stop has flourished with gardens, kitchens, a greenhouse, farmers' markets and a mission to revolutionize our food system. In a voice that's "never preachy" (MacLean's), Saul and Curtis share what The Stop could mean for the future of food, and argue that everyone deserves a dignified, healthy place at the table.

Homelessness, Health, and Human Needs Institute of Medicine 1988-02-01 There have always been homeless people in the United States, but their plight has only recently stirred widespread public reaction and concern. Part of this new recognition stems from the problem's prevalence: the number of homeless individuals, while hard to pin down exactly, is rising. In light of this, Congress asked the Institute of Medicine to find out whether existing health care programs were ignoring the homeless or delivering care to them inefficiently. This book is the report prepared by a committee of experts who examined these problems through visits to city slums and impoverished rural areas, and through an analysis of papers written by leading scholars in the field.

Should We Eat Meat? Vaclav Smil 2013-03-18 Meat eating is often a contentious subject, whether considering the technical, ethical, environmental, political, or health-related aspects of production and consumption. This book is a wide-ranging and interdisciplinary examination and critique of meat consumption by humans, throughout their evolution and around the world. Setting the scene with a chapter on meat’s role in human evolution and its growing influence during the development of agricultural practices, the book goes on to examine modern production systems, their efficiencies, outputs, and impacts. The major global trends of meat consumption are described in order to find out what part its consumption plays in changing modern diets in countries around the world. The heart of the book addresses the consequences of the "massive carnivory" of western diets, looking at the inefficiencies of production and at the huge impacts on land, water, and the atmosphere. Health impacts are also covered, both positive and negative. In conclusion, the author looks forward at his vision of “rational meat eating”, where environmental and health impacts are reduced, animals are treated more humanely, and alternative sources of protein make a higher contribution. Should We Eat Meat? is not an ideological tract for or against carnivorousness but rather a careful evaluation of meat's roles in human diets and the environmental and health consequences of its production and consumption. It will be of interest to a wide readership including professionals and academics in food and agricultural production, human health and nutrition, environmental science, and regulatory and policy making bodies around the world.

Free for All Janet Poppendieck 2011-01-10 As this book takes us on an eye-opening journey into the nation's school kitchens, the author offers an assessment

of school food in the United States. She reveals the forces that determine how lunch is served, such as the financial troubles of schools, the commercialization of childhood, and the reliance on market models. The author explores the deep politics of food provision from multiple perspectives including history, policy, nutrition, environmental sustainability, taste, and more. How did our children end up eating nachos, pizza, and Tater Tots for lunch? How did we get into the absurd situation in which nutritionally regulated meals compete with fast food items and snack foods loaded with sugar, salt, and fat? What is the nutritional profile of the federal meals? How well are they reaching students who need them? Opening a window onto our culture as a whole, she concludes with a vision for change: fresh, healthy food for all children as a regular part of their school day.

How to Eat Nigella Lawson 2010-06-01 Through her wildly popular television shows, her five bestselling cookbooks, her line of kitchenware, and her frequent media appearances, Nigella Lawson has emerged as one of the food world's most seductive personalities. How to Eat is the book that started it all--Nigella's signature, all-purposed cookbook, brimming with easygoing mealtime strategies and 350 mouthwatering recipes, from a truly sublime Tarragon French Roast Chicken to a totally decadent Chocolate Raspberry Pudding Cake. Here is Nigella's total (and totally irresistible) approach to food--the book that lays bare her secrets for finding pleasure in the simple things that we cook and eat every day.

The Complete Cooking for Two Cookbook America's Test Kitchen 2014-04-01 50 Recipes for EVERYTHING You'll Ever Want to Make. Because smaller families shouldn't have to rely on recipes built for four or six, America's Test Kitchen has reengineered 650 of our best recipes to serve just two. Over the years we've discovered that scaling down a recipe isn't as simple as cutting the ingredients in half—cooking times, temperatures, and equipment need to be adapted as well. This comprehensive cookbook takes the guesswork out of cooking for two so you can be sure that anything you want to make—from Classic Beef Stew to Lasagna to a mini batch of Fudgy Brownies or a Fluffy Yellow Layer Cake—will come out right (and perfectly proportioned) every time. We'll also give you options when you're short on time. 150 recipes, including Chicken Saltimbocca and Pan-Seared Rib-Eye Steaks with Sweet-Tart Red Wine Sauce, can be on the table in 30 minutes or less. For those times when you want healthier fare, we've provided more than 100 recipes labeled "Light" such as Provençal Vegetable Soup and Poached Shrimp Salad with Avocado and Grapefruit, each with nutritional information listed in an easy-to-read chart in the back of the book. And we include chapters on for-two slow cooking, grilling, and baking pies, quick breads, cakes, and cookies. A 25-page manual teaches the basics of cooking for two, including clever shopping strategies to reduce waste, smart storage tricks help extend freshness of key ingredients, and our picks for the most useful kitchen equipment for any two-person household.

Breadlines Knee-Deep in Wheat Janet Poppendieck 2014-04-26 At no time during the Great Depression was the contradiction between agriculture surplus and widespread hunger more wrenchingly graphic than in the government's attempt to raise pork prices through the mass slaughter of millions of "unripe" little pigs. This contradiction was widely perceived as a "paradox." In fact, as Janet Poppendieck makes clear in this newly expanded and updated volume, it was a normal, predictable working of an economic system rendered extreme by the Depression. The notion of paradox, however, captured the imagination of the public and policy makers, and it was to this definition of the problem that surplus commodities distribution programs in the Hoover and Roosevelt administrations were addressed. This book explains in readable narrative how the New Deal food assistance effort, originally conceived as a relief measure for poor people, became a program designed to raise the incomes of commercial farmers. In a broader sense, the book explains how the New Deal years were formative for food assistance in subsequent administrations; it also examines the performance--or lack of performance--of subsequent in-kind relief programs. Beginning with a brief survey of the history of the American farmer before the depression and the impact of the Depression on farmers, the author describes the development of Hoover assistance programs and the events at the end of that administration that shaped the "historical moment" seized by the early New Deal. Poppendieck goes on to analyze the food assistance policies and programs of the Roosevelt years, the particular series of events that culminated in the decision to purchase surplus agriculture products and distribute them to the poor, the institutionalization of this approach, the results achieved, and the interest groups formed. The book also looks at the takeover of food assistance by the U.S. Department of Agriculture and its gradual adaptation for use as a tool in the maintenance of farm income. Utiliizing a wide variety of official and unofficial sources, the author reveals with unusual clarity the evolution from a policy directly responsive to the poor to a policy serving mainly democratic needs.

More Than Just Food Garrett Broad 2016-02-09 "Raising concerns about health, the environment, and economic inequality, critics of the industrial food system insist that we are in crisis. In response, food justice activists based in marginalized, low-income communities of color across the United States have developed community-based solutions to the nation's food system problems, arguing that activities like urban agriculture, cultural nutrition education, and food-related social enterprises can be an integral part of systemic social change. Highlighting the work of Community Services Unlimited, a South Los Angeles food justice group founded by the Black Panther Party, More Than Just Food explores the possibilities and limitations of the community-based approach, offering a networked examination of the food justice movement in the age of the 'nonprofit industrial complex'"--Provided by publisher.

Lulu and the Hunger Monster TM Erik Talkin 2020-12-09 “In this story illustrating the reality of childhood hunger and food insecurity, Lulu invites kids into her world to help them understand what it’s like to battle the Hunger Monster. Lulu and the Hunger Monster delivers the right message at the right time, helping readers recognize the problem of childhood hunger and moving them to find solutions.” —Jeff Bridges, actor and anti-hunger advocate When Lulu’s mother’s van breaks down, money for food becomes tight and the Hunger Monster comes into their lives. Only visible to Lulu, Hunger Monster is a troublemaker who makes it hard for her to concentrate in school. How will Lulu help her mom and defeat the Monster when Lulu has promised never to speak the monster’s name to anyone? This realistic—and hopeful—story of food insecurity builds awareness of the issue of childhood hunger, increases empathy for people who are food insecure, and demonstrates how anyone can help end hunger. Lulu and the Hunger Monster™ empowers children to destigmatize the issue of hunger before the feeling turns into shame. The author combines years of experience fighting hunger as a food bank CEO with an MFA in writing for young children to craft an honest story of how poverty and food insecurity can affect adults and their children. Lulu’s story addresses the effects of hunger on learning and can be used in group settings to address social justice issues in an accessible and encouraging way.

Communities in Action National Academies of Sciences, Engineering, and Medicine 2017-04-27 In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. Communities in Action: Pathways to Health Equity seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

Sweet Charity? Janet Poppendieck 1999-08-01 In this era of eroding commitment to government sponsored welfare programs, voluntarism and private charity have become the popular, optimistic solutions to poverty and hunger. The resurgence of charity has to be a good thing, doesn't it? No, says sociologist Janet Poppendieck, not when stopgap charitable efforts replace consistent public policy, and poverty continues to grow.In Sweet Charity?, Poppendieck travels the

country to work in soup kitchens and "gleaning" centers, reporting from the frontlines of America's hunger relief programs to assess the effectiveness of these homegrown efforts. We hear from the "clients" who receive meals too small to feed their families; from the enthusiastic volunteers; and from the directors, who wonder if their "successful" programs are in some way perpetuating the problem they are struggling to solve. Hailed as the most significant book on hunger to appear in decades, *Sweet Charity?* shows how the drive to end poverty has taken a wrong turn with thousands of well-meaning volunteers on board. *Closing the Food Gap* Mark Winne 2009-01-01 In *Closing the Food Gap*, food activist and journalist Mark Winne poses questions too often overlooked in our current conversations around food: What about those people who are not financially able to make conscientious choices about where and how to get food? And in a time of rising rates of both diabetes and obesity, what can we do to make healthier foods available for everyone? To address these questions, Winne tells the story of how America's food gap has widened since the 1960s, when domestic poverty was "rediscovered," and how communities have responded with a slew of strategies and methods to narrow the gap, including community gardens, food banks, and farmers' markets. The story, however, is not only about hunger in the land of plenty and the organized efforts to reduce it; it is also about doing that work against a backdrop of ever-growing American food affluence and gastronomic expectations. With the popularity of Whole Foods and increasingly common community-supported agriculture (CSA), wherein subscribers pay a farm so they can have fresh produce regularly, the demand for fresh food is rising in one population as fast as rates of obesity and diabetes are rising in another. Over the last three decades, Winne has found a way to connect impoverished communities experiencing these health problems with the benefits of CSAs and farmers' markets; in *Closing the Food Gap*, he explains how he came to his conclusions. With tragically comic stories from his many years running a model food organization, the Hartford Food System in Connecticut, alongside fascinating profiles of activists and organizations in communities across the country, Winne addresses head-on the struggles to improve food access for all of us, regardless of income level. Using anecdotal evidence and a smart look at both local and national policies, Winne offers a realistic vision for getting locally produced, healthy food onto everyone's table.

All You Can Eat Joel Berg 2011-01-04 With the biting wit of *Supersize Me* and the passion of a lifelong activist, Joel Berg has his eye on the growing number of people who are forced to wait on lines at food pantries across the nation—the modern breadline. *All You Can Eat* reveals that hunger is a problem as American as apple pie, and shows what it is like when your income is not enough to cover rising housing and living costs and put food on the table. Berg takes to task politicians who remain inactive; the media, which ignores hunger except during holidays and hurricanes; and the food industry, which makes fattening, artery-clogging fast food more accessible to the nation's poor than healthy fare. He challenges the new president to confront the most unthinkable result of US poverty—hunger—and offers a simple and affordable plan to end it for good. A spirited call to action, *All You Can Eat* shows how practical solutions for hungry Americans will ultimately benefit America's economy and all of its citizens.

Firekeeper's Daughter Angeline Boulley 2021-03-16 A REESE WITHERSPOON x HELLO SUNSHINE BOOK CLUB YA PICK An Instant #1 New York Times Bestseller Soon to be adapted at Netflix for TV with President Barack Obama and Michelle Obama's production company, Higher Ground. "One of this year's most buzzed about young adult novels." —Good Morning America A TIME Magazine Best YA Book of All Time Selection Amazon's Best YA Book of 2021 So Far (June 2021) A 2021 Kids' Indie Next List Selection An Entertainment Weekly Most Anticipated Books of 2021 Selection A PopSugar Best March 2021 YA Book Selection With four starred reviews, Angeline Boulley's debut novel, *Firekeeper's Daughter*, is a groundbreaking YA thriller about a Native teen who must root out the corruption in her community, perfect for readers of Angie Thomas and Tommy Orange. Eighteen-year-old Daunis Fontaine has never quite fit in, both in her hometown and on the nearby Ojibwe reservation. She dreams of a fresh start at college, but when family tragedy strikes, Daunis puts her future on hold to look after her fragile mother. The only bright spot is meeting Jamie, the charming new recruit on her brother Levi's hockey team. Yet even as Daunis falls for Jamie, she senses the dashing hockey star is hiding something. Everything comes to light when Daunis witnesses a shocking murder, thrusting her into an FBI investigation of a lethal new drug. Reluctantly, Daunis agrees to go undercover, drawing on her knowledge of chemistry and Ojibwe traditional medicine to track down the source. But the search for truth is more complicated than Daunis imagined, exposing secrets and old scars. At the same time, she grows concerned with an investigation that seems more focused on punishing the offenders than protecting the victims. Now, as the deceptions—and deaths—keep growing, Daunis must learn what it means to be a strong Anishinaabe kwe (Ojibwe woman) and how far she'll go for her community, even if it tears apart the only world she's ever known.

Alcoholics Anonymous Alcoholics Anonymous World Services 1986 The basic text for Alcoholics Anonymous.

Reinventing Food Banks and Pantries Katie S. Martin 2021-03-09 In the US, food banks and pantries provide billions of meals a year to people in need. And yet hunger still affects one in nine Americans. What are we doing wrong? In *Reinventing Food Banks and Pantries*, Katie Martin presents a new model for charitable food, one where success is measured not by pounds of food distributed but by lives changed. The key is shifting our focus from a lack of food to strategies that build empathy, equity, and political will. Martin shares solutions in a warm, engaging style, with simple steps that anyone working or volunteering at a food bank or pantry can take today. Solutions range from providing client choice, where individuals select their own food with dignity, to offering job training programs and joining the fight for a living wage. As Martin writes, it takes more than food to end hunger. Picking up this insightful, lively book is a great first step.

Arc of Justice Kevin Boyle 2007-04-01 An electrifying story of the sensational murder trial that divided a city and ignited the civil rights struggle In 1925, Detroit was a smoky swirl of jazz and speakeasies, assembly lines and fistfights. The advent of automobiles had brought workers from around the globe to compete for manufacturing jobs, and tensions often flared with the KKK in ascendance and violence rising. Ossian Sweet, a proud Negro doctor-grandson of a slave-had made the long climb from the ghetto to a home of his own in a previously all-white neighborhood. Yet just after his arrival, a mob gathered outside his house; suddenly, shots rang out: Sweet, or one of his defenders, had accidentally killed one of the whites threatening their lives and homes. And so it began-a chain of events that brought America's greatest attorney, Clarence Darrow, into the fray and transformed Sweet into a controversial symbol of equality. Historian Kevin Boyle weaves the police investigation and courtroom drama of Sweet's murder trial into an unforgettable tapestry of narrative history that documents the volatile America of the 1920s and movingly re-creates the Sweet family's journey from slavery through the Great Migration to the middle class. Ossian Sweet's story, so richly and poignantly captured here, is an epic tale of one man trapped by the battles of his era's changing times. *Arc of Justice* is the winner of the 2004 National Book Award for Nonfiction.

[Feeding the Crisis](#) Maggie Dickinson 2019-11-19 The Supplemental Nutrition Assistance Program (SNAP), formerly known as food stamps, is one of the most controversial forms of social welfare in the United States. Although it's commonly believed that such federal programs have been cut back since the 1980s, Maggie Dickinson charts the dramatic expansion and reformulation of the food safety net in the twenty-first century. Today, receiving SNAP benefits is often tied to work requirements, which essentially subsidizes low-wage jobs. Excluded populations—such as the unemployed, informally employed workers, and

undocumented immigrants—must rely on charity to survive. *Feeding the Crisis* tells the story of eight families as they navigate the terrain of an expanding network of food assistance programs in which care and abandonment work hand in hand to regulate people on the social and economic margins. Amid calls at the federal level to expand work requirements for food assistance, Dickinson shows us how such ideas are bad policy that fail to adequately address hunger in America. *Feeding the Crisis* brings the voices of food-insecure families into national debates about welfare policy, offering fresh insights into how we can establish a right to food in the United States.

Freedom from Want George Kent 2005-06-02 There is, literally, a world of difference between the statements "Everyone should have adequate food," and "Everyone has the right to adequate food." In George Kent's view, the lofty rhetoric of the first statement will not be fulfilled until we take the second statement seriously. Kent sees hunger as a deeply political problem. Too many people do not have adequate control over local resources and cannot create the circumstances that would allow them to do meaningful, productive work and provide for themselves. The human right to an adequate livelihood, including the human right to adequate food, needs to be implemented worldwide in a systematic way. Freedom from Want makes it clear that feeding people will not solve the problem of hunger, for feeding programs can only be a short-term treatment of a symptom, not a cure. The real solution lies in empowering the poor. Governments, in particular, must ensure that their people face enabling conditions that allow citizens to provide for themselves. In a wider sense, Kent brings an understanding of human rights as a universal system, applicable to all nations on a global scale. If, as Kent argues, everyone has a human right to adequate food, it follows that those who can empower the poor have a duty to see that right implemented, and the obligation to be held morally and legally accountable, for seeing that that right is realized for everyone, everywhere.

Project: Happily Ever After Alisa Bowman 2010-12-28 What do you do when your marriage is so unhappy that you begin to fantasize about your husband's funeral? That's how bad it got for Alisa Bowman. . . So she launched a last-ditch effort to save her marriage. Project: Happily Ever After is her fearlessly honest and humorous account of how she went from being a “divorce daydreamer” to renewing her wedding vows—and all of the steps in between. From bikini waxes to erotica, romance instruction manuals to second honeymoons, the silent treatment to power struggles, she goes where many marriage-improvement gurus have feared to tread. Equal parts funny, poignant, and most importantly, useful, Bowman's story will give other miserably-married folks courage and hope. And in addition to telling her own story, she packs straightforward prescriptive guidance, including a “10-Step Marital Improvement Guide.” Readers will laugh. They'll cry. And they can start on the road toward their own happy ending!

[Ask a Manager](#) Alison Green 2018-05-01 From the creator of the popular website *Ask a Manager* and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called “the Dear Abby of the work world.” Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for *Ask a Manager* “A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green's *Ask a Manager* column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* “*Ask a Manager* is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*

[The Enforcement of Morals](#) Patrick Devlin 2010-01-31 Are morals always relative? Are private actions--among consenting adults--always beyond the law? Or are there some behaviors which so weaken a society that common beliefs about right and wrong must be enforced to protect the common good? In opposing the decriminalization of private acts of homosexuality in Britain, Patrick Devlin maintained that not only is it reasonable to allow popular morality to influence lawmaking, it is imperative: ". . . For a society is not something that is kept together physically; it is held by the invisible bonds of common thought." Some sidestep this controversial issue by asserting that the law should not be used to enforce any morality. Others invoke John Stuart Mill's doctrine that the only purpose for laws governing any member of society is to prevent harm to others, chiefly physical harm. But, Devlin argued, while breaches of shared morality do not cause harm to other individuals in the way that murder and assault do, they do harm society by undermining its moral structure. Patrick Devlin (1905-1992) studied history and law at Cambridge University and became a successful lawyer.

A Foodie's Guide to Capitalism Eric Holt-Giménez 2017-10-24 Capitalism drives our global food system. Everyone who wants to end hunger, who wants to eat good, clean, healthy food, needs to understand capitalism. This book will help do that. In his latest book, Eric Holt-Giménez takes on the social, environmental, and economic crises of the capitalist mode of food production. Drawing from classical and modern analyses, *A Foodie's Guide to Capitalism* introduces the reader to the history of our food systemand to the basics of capitalism. In straightforward prose, Holt-Giménez explains the political economics of why—even as local, organic, and gourmet food have spread around the world—billions go hungry in the midst of abundance; why obesity is a global epidemic; and why land-grabbing, global warming, and environmental pollution are increasing. Holt-Giménez offers emblematic accounts—and critiques—of past and present-day struggles to change the food system, from "voting with your fork," to land occupations. We learn about the potential and the pitfalls of organic and community-supported agriculture, certified fair trade, microfinance, land trusts, agrarian reform, cooperatives, and food aid. We also learn about the convergence of growing social movements using the food system to challenge capitalism. How did racism, classism, and patriarchy become structural components of our food system? Why is a rational agriculture incompatible with the global food regime? Can transforming our food system transform capitalism? These are questions that can only be addressed by first understanding how capitalism works.

[Hunger pains](#) Garthwaite, Kayleigh 2016-06-14 WINNER OF THE BRITISH ACADEMY PETER TOWNSEND PRIZE 2017 Welcome to Foodbank Britain, where emergency food provision is an increasingly visible and controversial feature of ongoing austerity. We know the statistics, but what does it feel like to be forced to turn to foodbanks for help? What does it take to get emergency food, and what's in the food parcel? Kayleigh Garthwaite conducted hundreds of hours of interviews while working in a Trussell Trust foodbank. She spoke to people like Anna and her 11 year old daughter Daisy who were eating out of date food since Anna left her job due to mental health problems. Glen explained the shame he felt using the foodbank having taken on a zero hours contract. Pregnant Jessica walked two miles to the foodbank because she couldn't afford public transport. This provocative book provides a much needed voice for foodbank users and volunteers in the UK, and a powerful insight into the realities of foodbank use from the inside.

Emergency Attraction Samantha Beck 2017-04-17 Ten years ago when Shane Maguire chose the Marines as his escape from some trouble of his own making, he only regretted one thing—leaving Sinclair Smith behind. Despite his best intentions, she ended up as the one that got away. Now he's back, determined to reclaim everything he gave up, including Sinclair. Sinclair is immune to Shane's charms. She's immune to stolen kisses behind the gym. And she's definitely immune to that maneuver he did in the back seat of his car... Okay, maybe her hormones are susceptible, but she has absolutely no desire to risk anything on the bad boy who broke all his promises. When a little emergency lands her at his mercy, he offers her a deal she can't refuse. And this time, she'll show Shane what it means to be left wanting... Each book in the *Love Emergency* series is a standalone story that can be enjoyed out of order. Series Order: Book #1 *Emergency Engagement* Book #2 *Emergency Delivery* Book #3 *Emergency Attraction*

[Feeding the Other](#) Rebecca T. De Souza 2019-04-09 How food pantries stigmatize their clients through a discourse that emphasizes hard work, self help, and economic productivity rather than food justice and equity. The United States has one of the highest rates of hunger and food insecurity in the industrialized world, with poor households, single parents, and communities of color disproportionately affected. Food pantries—run by charitable and faith-based organizations—rather than legal entitlements have become a cornerstone of the government's efforts to end hunger. In *Feeding the Other*, Rebecca de Souza argues that food pantries stigmatize their clients through a discourse that emphasizes hard work, self help, and economic productivity rather than food justice

and equity. De Souza describes this “framing, blaming, and shaming” as “neoliberal stigma” that recasts the structural issue of hunger as a problem for the individual hungry person. De Souza shows how neoliberal stigma plays out in practice through a comparative case analysis of two food pantries in Duluth, Minnesota. Doing so, she documents the seldom-acknowledged voices, experiences, and realities of people living with hunger. She describes the failure of public institutions to protect citizens from poverty and hunger; the white privilege of pantry volunteers caught between neoliberal narratives and social justice concerns; the evangelical conviction that food assistance should be “a hand up, not a handout”; the culture of suspicion in food pantry spaces; and the constraints on food choice. It is only by rejecting the neoliberal narrative and giving voice to the hungry rather than the privileged, de Souza argues, that food pantries can become agents of food justice.

Angela's Ashes Frank McCourt 2005 A heartfelt account of poverty in Ireland and emigration to America. -- back cover.

Apocalypse Chow Jon Robertson 2005 An irreverent guide on how to eat with taste and style in spite of home emergencies, severe weather, and power failures shares simple and practical tips on how to obtain, store, and prepare such meals as Last Resort Lasagna, Consolation Couscous, and Three's a Crowd Bean Salad. Original. 20,000 first printing.

Robert Ludlum's (TM) The Bourne Objective Eric Van Lustbader 2010-06-01 A Jason Bourne novel from the #1 New York Times bestselling author Facing down mercenaries in Africa, Jason Bourne witnesses the death of an art dealer named Tracy Atherton. Her killing dredges up snatches of Bourne's impaired memory, in particular the murder of a young woman on Bali who entrusted him with a strangely engraved ring-an artifact of such powerful significance that people have killed to obtain it. Now he's determined to find the ring's owner and purpose. But Bourne never knows what terrible acts he'll discover he committed when he digs into the past. The trail will lead him through layers of conspiracy to a vicious Russian mercenary, Leonid Arkadin, who was also a graduate of the Central

Intelligence training program Treadstone. A covert course designed to create ruthless assassins for C.I., it was shuttered by Congress for corruption. Yet before it was dismantled, it produced Bourne and Arkadin, giving them equal skills, equal force, and equal cunning. As Bourne's destiny circles closer to Arkadin's, it becomes clear that the eventual collision of these men is not of their own making. Someone else has been watching and manipulating them. Someone who wants to know, Who is the more deadly agent?

Big Hunger Andrew Fisher 2018-04-13 How to focus anti-hunger efforts not on charity but on the root causes of food insecurity, improving public health, and reducing income inequality. Food banks and food pantries have proliferated in response to an economic emergency. The loss of manufacturing jobs combined with the recession of the early 1980s and Reagan administration cutbacks in federal programs led to an explosion in the growth of food charity. This was meant to be a stopgap measure, but the jobs never came back, and the “emergency food system” became an industry. In Big Hunger, Andrew Fisher takes a critical look at the business of hunger and offers a new vision for the anti-hunger movement. From one perspective, anti-hunger leaders have been extraordinarily effective. Food charity is embedded in American civil society, and federal food programs have remained intact while other anti-poverty programs have been eliminated or slashed. But anti-hunger advocates are missing an essential element of the problem: economic inequality driven by low wages. Reliant on corporate donations of food and money, anti-hunger organizations have failed to hold business accountable for offshoring jobs, cutting benefits, exploiting workers and rural communities, and resisting wage increases. They have become part of a “hunger industrial complex” that seems as self-perpetuating as the more famous military-industrial complex. Fisher lays out a vision that encompasses a broader definition of hunger characterized by a focus on public health, economic justice, and economic democracy. He points to the work of numerous grassroots organizations that are leading the way in these fields as models for the rest of the anti-hunger sector. It is only through approaches like these that we can hope to end hunger, not just manage it.
