Outdoors in the Southwest Andrew Gulliford 2014-04-18 More college students than ever are majoring in Outdoor Recreation, Outdoor Education, or Adventure Education, but fewer and fewer Americans spend any time in thoughtful, respectful engagement with wilderness. While many young people may think of adrenaline-laced extreme sports as prime outdoor activities, with *Outdoors in the Southwest*, Andrew Gulliford seeks to promote appreciation for and discussion of the wild landscapes where those sports are played. Advocating an outdoor ethic based on curiosity, cooperation, humility, and ecological literacy, this essay collection features selections by renowned southwestern writers including Terry Tempest Williams, Edward Abbey, Craig Childs, and Barbara Kingsolver, as well as scholars, experienced guides, and river rats. Essays explain the necessity of nature in the digital age, recount rafting adventures, and reflect on the psychological effects of expeditions. True-life cautionary tales tell of encounters with nearly disastrous flash floods, 900-foot falls, and lightning strikes. The final chapter describes the work of Great Old Broads for Wilderness, the Colorado Fourteeners Initiative, and other exemplars of “wilderness tithing”—giving back to public lands through volunteering, stewardship, and eco-advocacy. Addressing the evolution of public land policy, the meaning of wilderness, and the importance of environmental protection, this collection serves as an intellectual guidebook not just for students but for travelers and anyone curious about the changing landscape of the West.

The Art of Stillness Pico Iyer 2014-11-04 A follow up to Pico Iyer's essay “The Joy of Quiet,” *The Art of Stillness* considers the unexpected adventure of staying put and reveals a counterintuitive truth: The more ways we have to connect, the more we seem desperate to unplug. Why might a lifelong traveler like Pico Iyer, who has journeyed from Easter Island to Ethiopia, Cuba to Kathmandu, think that sitting quietly in a room might be the ultimate adventure? Because in our madly accelerating world, our lives are crowded, chaotic and noisy. There's never been a greater need to slow down, tune out and give ourselves permission to be still. In *The Art of Stillness*—a TED Books release—Iyer investigate the lives of people who have made a life seeking stillness: from Matthieu Ricard, a Frenchman with a PhD in molecular biology who left a promising scientific career to become a Tibetan monk, to revered singer-songwriter Leonard Cohen, who traded the pleasures of the senses for several years of living the near-silent life of meditation as a Zen monk. Iyer also draws on his own experiences as a travel writer to explore why advances in technology are making us more likely to retreat. He reflects that this is perhaps the reason why many people—even those with no religious commitment—seem to be turning to yoga, or meditation, or seeking silent retreats. These aren't New Age fads so much as ways to rediscover the wisdom of an earlier age. Growing trends like observing an “Internet Sabbath”—turning off online connections from Friday night to Monday morning—highlight how increasingly desperate many of us are to unplug and bring stillness into our lives. *The Art of Stillness* paints a picture of why so

many—from Marcel Proust to Mahatma Gandhi to Emily Dickinson—have found richness in stillness. Ultimately, Iyer shows that, in this age of constant movement and connectedness, perhaps staying in one place is a more exciting prospect, and a greater necessity than ever before. In 2013, Pico Iyer gave a blockbuster TED Talk. This lyrical and inspiring book expands on a new idea, offering a way forward for all those feeling affected by the frenetic pace of our modern world.

The Adventure Gap James Edward Mills 2014-09-24 • Chronicles the first all-African American summit attempt on Denali, the highest point in North America • Part adventure story, part history, and part argument for the importance of inspiring future generations to value nature The nation's wild places—born from national and state parks to national forests, preserves, and wilderness areas—belong to all Americans. But not all of us use these resources equally. Minority populations are much less likely to seek recreation, adventure, and solace in our wilderness spaces. It's a difference that African American author James Mills addresses in his new book, *The Adventure Gap: Changing the Face of the Outdoors*. Bridging the so-called “adventure gap” requires role models who can inspire the uninitiated to experience and enjoy wild places. Once new visitors are there, a love affair often follows. This is important because as our country grows increasingly multicultural, our natural legacy will need the devotion of people of all races and ethnicities to steward its care. In 2013, the first all-African American team of climbers, sponsored by the National Outdoor Leadership School (NOLS), challenged themselves on North America's highest point, the dangerous and forbidding Denali, in Alaska. Mills uses Expedition Denali and its team members' adventures as a jumping-off point to explore how minority populations view their place in wild environments and to share the stories of those who have already achieved significant accomplishments in outdoor adventures—from Mathew Henson, a Black explorer who stood with Peary at the North Pole, to Kai Lightner, a teenage sport climber currently winning national competitions. The goal of the expedition, and now the book, is to inspire minority communities to look outdoors for experiences that will enrich their lives, and to encourage them toward greater environmental stewardship.

An Angler's Reminiscences Charles Hallock 2015-06-13 Excerpt from An Angler's Reminiscences: A Record of Sport, Travel, and Adventure Charles Hallock's literary career, covering a period of sixty years - beginning with the editorship of a college paper, "The Scorpion," at Amherst, in 1852 - has been remarkable for wide range, and thorough mastery of each subject. Although angling has always been his favorite recreation his active participation in other manly outdoor sports is indicated by the title, "Dean of American Sportsmen," conferred by prominent brothers of the guild in recognition of his ability as a practical exponent of healthful pastimes, and as an author - an acknowledged authority - in this branch of literature. Turning to the brief autobiography in this volume - a classic in its special line - the reader will find some of the salient features of a life work great in achievement, varied in scope - from scientific research to current comment on the topics of the day; from sojourning in the Sunny South to pioneer jaunts in the wild West and to far-off Alaska - yet interspersed always with pursuit of the pastimes he loved, with rod and gun. His recreations - like those of "Christopher North" - furnished material for delightful sketches, standard works, scientific essays. His companions were men of action - the hardy voyageurs, at home in primitive craft on wild waters, or on foot along wild trails; ardent anglers seeking adventurous sport on salmon rivers and trout streams far from routes of ordinary tourists; scholars and scientists delving deep in the study of animated nature. That Charles Hallock is and has long been a recognized force, an accepted authority in matters pertaining to fish and fishing, science and travel, is evidenced by the fact that he is an active or honorary member of no less than fifty-seven clubs and associations, many of these being organizations of national and some of international scope. His copyrighted books are seventeen in number, and his various articles in the magazines, sportsmen's journals and daily press would, if collected in library form, fill fifty volumes of absorbing interest. The condensed summary, given elsewhere in this work, records the remarkable fact that outside of newspaper work his occupations and important experiments reached a total of sixty-seven, while his hairbreadth escapes numbered twenty-eight. As an editor, particularly in his favorite field, he possessed the qualifications to acquire the full measure of success. His literary style was here shown in its versatile character, its vigor, and perfect command of the English language. A valuable adjunct was his world-wide acquaintance with men of mark in sportsmanship and the world of letters. The Daily Show (The Book) Chris Smith 2016-11-22 NEW YORK TIMES BESTSELLER The complete, uncensored history of the award-winning The Daily Show with Jon Stewart, as told by its correspondents, writers, and host. For almost seventeen years, The Daily Show with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers-including Samantha Bee, Stephen Colbert, John Oliver, and Steve Carell - plus some of The Daily Show's most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program to Trevor Noah's succession, rising from a scrappy jester in the 24-

hour political news cycle to become part of the beating heart of politics-a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, and provocative takes on Wall Street and racism, The Daily Show has been a cultural touchstone. Now, for the first time, the people behind the show's seminal moments come together to share their memories of the last-minute rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America's most groundbreaking shows.
