Suspension Bible Paul
Thede 2010-06-19
Suspension is probably the
most misunderstood aspect
of motorcycle performance.
This book, by America's
premier suspension
specialist, makes the art and
science of suspension tuning
accessible to professional
and backyard motorcycle
mechanics alike. Based on
Paul Thede's wildly popular
Race Tech Suspension
Seminars, this step-by-step

guide shows anyone how to make their bike, or their kid's, handle like a pro's. The book gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

Cliffs of Fall Shirley
Hazzard 2004-07-01 From the author of The Great Fire, a collection of stories about love and acceptance, expectations and disappointment Shirley Hazzard's stories are sharp, sensitive portrayals of moments of crisis. Whether they are set in the Italian countryside or suburban Connecticut, the stories deal with real people and real problems. In the title piece, a young widow is surprised and ashamed by her lack of grief for her husband. In "A Place in the Country," a young woman has a passionate, guilty affair with her cousin's husband. In "Harold," a gawky, lonely young man finds acceptance and respect through his poetry. Moving and

evocative, these ten stories are written with subtlety, humor, and a keen understanding of the relationships between men and women.
